

*PayMin Solutions*

# Make more profit from non-cash payments than you do cash payments!

It's the Edge Program, exclusively from North American Bancard and PayMin Solutions!

## What is Edge?

Edge is NAB's innovative solution that combines our Flat Rate Pricing and Cash Discount Programs. By applying both a "cash" price and an "other payment" price to every item,\* Edge allows you to treat every transaction as a cash transaction!

## How does Edge Plus work?

You secure one low rate on every transaction. Then, through using our cash discount programming, all items are assigned two prices, creating a unique price increase that is applied on an item whenever a payment method other than cash is used. With Edge Plus, for every transaction fee paid, you will receive 5% back every month\*\*.

Get **PAID** to accept cards by partnering with Paymin Solutions today!

\*Follow your state laws concerning pricing communication and commerce.

\*\*5% reflects the total after expenses such as interchange and PCI Compliance, speak with a representative for additional details.

*PayMin Solutions*

No matter what business you're in, we can give you a competitive edge.

Edge is ideal for merchants in any industry.

**Hospitality.**

**Retail.**

**Quick-serve  
restaurants, and more.**

Use Edge in-store, online, or on-the-go!

Edge is compatible with all types of payments, including traditional magstripe cards, EMV chip cards, and NFC contactless. It even works with industry leading payment devices like our Smart Solutions, which allow you to accept payments wherever you need to!
